

**BIOLOGY SUMMER UNDERCLASSMAN RESEARCH
FELLOWSHIPS
2005 APPLICATION**

Name_____ SEU ID _____

Local Phone_____ Local Address_____

e-mail_____ (zip code) _____

Please summarize your reasons for applying for a research scholarship in the summer of 2005.

This project is likely to require several hours per day, for five days per week for at least six weeks. There may be extensive travel required. Please explain your other commitments for this summer and explain how you intend to eliminate any potential conflicts with this research commitment.

Dr. O'Leary will be leading a group that investigates the molecular control of cell determination and differentiation. Dr. Quinn will be a leading a group that investigates the photosynthetic mechanisms in intact plants. Please state your preference for an area of investigation, and explain that preference.

Estimated Overall GPA_____ Estimated GPA in Biology_____

Submit to William J. Quinn in Fleck 212B on or before 2/11/05.
